## WILSON PRAISED BY PUBLISHERS

Message Indorsing President's Administration Is Wired to Washington. New Officers Are Elected.

The thirteenth annual gathering of the Southern Newspaper Publishers' association came to a close last Tuesday afternoon, and by midnight the majority of the fifty delegates who came to Atlanta Monday for the two-day session of the convention had left for their various homes, in all parts of the sixteen southern states.

The last official act of the organization was to elect officers for the ensuing year and to name a place for the fourteenth convention of the body. The election of officers of the publishers' association proved one of the delightful events of the gathering, and the action on the names offered in nomination was unanimous. The officers chosen for 1914 were:

F. W. R. Himmann, of Jacksonville, Fla., president; W. T. Hatter, of Atlanta, vice president; William Clemens, of Birmingham, Ala., secretary. Mr. Clemens was re-elected to the office of secretary.

**Asheville Gets Meeting.** In a last minute rally it was decided to hold next year's convention at Asheville, N. C. Jacksonville had made a strenuous bid for the convention, as well as Nashville, Tenn., but the selection of Asheville came as a happy solution of the much-contested problem.

The most important piece of work transacted by the publishers in the final session was the making of an accredited list of advertising agencies in the south, from whom the publishers will accept advertising copy. This action will tend to weed out the "wild cat" advertising schemes that have been prevalent in the past throughout the southern publishing field.

The afternoon session of the convention was brief but full of action. There were no reports read. The session was taken up with new discussion, which followed a buffet lunch served at 1 o'clock in the pine room at the Ansley hotel, where the convention has been in session.

That the Atlanta session will mark the high tide in the affairs of the Southern Newspaper Publishers' association was the expression of the majority of the delegates. F. W. R. Himmann, as he expressed it just after the convention closed Tuesday afternoon.

"We have been royally entertained," said Mr. Himmann, and we have, I believe, received a great benefit from our talks and the papers read before the delegates. This is by far the best gathering of the southern publishers that I have ever attended, and I look forward to a great year's activity on the part of our organization."

**Message to Wilson.** At the morning session of the convention a telegram was sent to President Wilson after unanimous favorable action on the part of the delegates, which read as follows:

"H. A. Woodruff, Executive Manager, Washington, D. C., on behalf of the Southern Newspaper Publishers' association, representing fifty daily newspapers of the southern now in session here, a resolution unanimously indorsing your administration was enthusiastically and unanimously adopted."

**F. W. R. Himmann, Vice President.** M. W. Connelley, of the Memphis News-Scimitar, addressed the morning session, stressing the reform work that has been through the ranks of the southern newspapers in the last two or three years.

Major W. T. Anderson, general manager of The Mason Telegraph, who followed Mr. Connelley, brought the delegates to attention by a paper on "A good newspaper should publish good liquor and good advertisements," citing numerous instances where such advertising had proved beneficial to readers of such a newspaper.

**A. G. Clarkson, of The Houston Post; George A. Clark, of The Chattanooga News; James H. Himmann, of The Atlanta Constitution; and D. A. Kinison, of Atlanta, also spoke.**

Several of the delegates to the convention remained over Tuesday night to attend the theater. F. W. R. Himmann, the newly elected president of the organization, will not leave Atlanta until today.

**Oliver at Nashville.** Nashville, Ga., March 27.—(Special.) A. D. Oliver, the famous actor, was lectured here last night. He thoroughly convinced his auditors that he was innocent of the crime for which he served four years in the penitentiary.

## STORE AT BOWDON BURNED TO COVER WORK OF ROBBERS

Bowdon, Ga., March 17.—(Special.)—The store of W. M. Price, two miles south of this place, was burglarized and burned last night. The robbers entered the store by opening one of the windows. After ransacking the store they poured kerosene oil on the walls and set fire to the building to cover up their work. Blood hounds were secured and put on the track of the thieves, ran them for some distance and found that they had taken a branch for some distance away from the store. It is believed that they did not get anything on their feet to throw the dogs off the scent.

The store and its contents are a total loss of about three thousand dollars.

## BAIRNBRIDGE TO HOLD MEETING OF SHIRINERS

Bainbridge, Ga., March 17.—(Special.)—Shriners throughout southwest Georgia are preparing for a grand assembly to be held here April 22. This is the first of the series of assemblies in the state and annually furnishes many hundreds of the Shriners with a vacation. On this occasion, which concerns practically every Shiner in the southwest Georgia that has a Shiner lodge in it, candidates will be had from the following places: Thomasville, Houston, Cairo, Wilkesboro, Delcotte, Shalston, and others.

Seventy-five candidates are expected to appear at the approaching meeting of the imperial council, in Atlanta, in May, as this is one of the last institutions in the state before the great west of shirners.

## HOUNDS USED TO HUNT FOR STOLEN LIQUOR

Cordell, Ga., March 17.—(Special.)—Getting booze seemed to be the sole object of unknown parties who broke into the depot of the Georgia Southern and Florida railway, at Wrentham, last night. Several gallons of the potent ferment were carried away, while nothing else about the depot was missing. The parties who broke in, as strongly bent on recovering their stolen liquor, put bloodhounds on their trail, but failed to capture them.

## 3 MUTINIOUS SAILORS JAILED IN SAVANNAH

Savannah, Ga., March 17.—Three sailors were taken up by police here. Three men are lodged in the Savannah city jail. They were taken up by police here. They were taken up by police here.

## PLAYGROUND SECRETARY WILL COME TO ATLANTA

The Playground and Recreation Association of America, at the invitation of the Atlanta Chamber of Commerce, will send to Atlanta shortly a field secretary for the purpose of developing this work in the city and the south. This invitation was sent by President Williamson, at the instance of the parks and playground committee of the chamber, of which V. H. Krieger is chairman.

## Neuralgia, Colds, Sore Throat STOPPED!

Don't wait till pain visits you—buy a bottle of Sloan's Liniment today—keep it in the house—it's the best known insurance against aches and pains.

**Steady Neuralgia and Toothache.** Mr. Rudolph Nichols, Orem, Utah, writes: "I have used Sloan's Liniment for toothache and neuralgia in the face, and have found it to be the best remedy I have ever used. It is the best remedy I have ever used. It is the best remedy I have ever used."

**Steady Neuralgia.** Mr. C. M. Dwyer of Chicago, Ill., writes: "I have used Sloan's Liniment for neuralgia and toothache, and have found it to be the best remedy I have ever used. It is the best remedy I have ever used. It is the best remedy I have ever used."

**Steady Neuralgia.** Mr. C. M. Dwyer of Chicago, Ill., writes: "I have used Sloan's Liniment for neuralgia and toothache, and have found it to be the best remedy I have ever used. It is the best remedy I have ever used. It is the best remedy I have ever used."

## LOCAL MERCHANTS ARE HANDICAPPED

Must Send Samples All the Way to New York to Compete for Orders for Supplies for Fort McPherson.

That it is necessary for Atlanta merchants bidding on the commissary supplies of Fort McPherson to send their samples all the way to New York in order to compete with New York merchants is the trade of the local army post has brought out at a meeting of the Atlanta Chamber of Commerce committee on wholesale trade, of which Lynn Fort is chairman, at the chamber of commerce quarters, in the Empire building, Tuesday afternoon.

This comes about, it is believed, by the abolishment of the department of commissaries in the Atlanta post, as a part of the Second brigade, directly under the command of the First division, the headquarters of which are at Governor's Island, New York. Since this change was made in the divisions of the army, it is said, the division quartermaster of the First division, whose office is at the division headquarters, has done all the purchasing of commissary supplies for the post at Fort McPherson, and the commissary department here has had nothing to do with the purchases except such as include perishable goods.

Thus it is that Atlanta merchants have had opportunity to bid locally only on perishable goods and a few of the supplies for the officers. A number of Atlanta merchants were present at the committee meeting and a thorough discussion of the situation was held.

At the adjournment it was decided that Chairman Fort should appoint a subcommittee of three, who should go to Fort McPherson and make investigations and hold conference and appeal to any other source where they may be able to get information which will aid in solving the question of bringing the post trade back to Atlanta.

Chairman Fort will appoint this committee within the next two or three days. When the subcommittee has completed its investigations a meeting of the wholesale trade committee will be called and the subcommittee will make its report. This report will probably be forthcoming next week.

**By Jack Carrigan, Jr.** Washington, March 17.—(Special.)—Representative William Schley Howard received today another letter from Major General J. B. Aleshaire, chief quartermaster United States army, confirming his promise of yesterday to call to the attention of the adjutant general's department the discrimination against Atlanta merchants in the matter of furnishing supplies to Fort McPherson.

The letter calls attention to a previous letter of the adjutant general, dated December 1912, referring to the purchase of supplies and the orders issued by the quartermaster's department that Atlanta merchants be afforded an opportunity to bid on these supplies.

Major General Aleshaire quotes part of his letter of yesterday to the adjutant general, upon receipt of Representative Howard's latest protest, backed by one from Mr. Howell, editor of the Atlanta Constitution, and the Atlanta Chamber of Commerce, and adds:

"It is requested that this matter be again referred to the department authorities of the eastern department for their investigation and report. It is requested that action in this instance be expedited."

The letter quotes the complaints that since last October Atlanta merchants have not been given an opportunity to bid on commissary stores, and again specifically directs that hereafter bids be received from them for supplies needed at Fort McPherson.

**Steady Neuralgia.** Mr. C. M. Dwyer of Chicago, Ill., writes: "I have used Sloan's Liniment for neuralgia and toothache, and have found it to be the best remedy I have ever used. It is the best remedy I have ever used. It is the best remedy I have ever used."

**Steady Neuralgia.** Mr. C. M. Dwyer of Chicago, Ill., writes: "I have used Sloan's Liniment for neuralgia and toothache, and have found it to be the best remedy I have ever used. It is the best remedy I have ever used. It is the best remedy I have ever used."

**Steady Neuralgia.** Mr. C. M. Dwyer of Chicago, Ill., writes: "I have used Sloan's Liniment for neuralgia and toothache, and have found it to be the best remedy I have ever used. It is the best remedy I have ever used. It is the best remedy I have ever used."

## DIAMONDS DISAPPEAR, PUZZLING DETECTIVES

Police Searching for Lost Jewelry of Miss Nan DuBignon.

The detective force of Atlanta is puzzled over the strange disappearance of \$1,000 of jewels from the home of Mrs. Fleming G. duBignon, at No. 32 Peachtree place, the jewels being missed for the first time on Sunday.

Miss Nan duBignon is the owner of the jewels, and she states that she has not worn them since Christmas, and that they have been in her dresser drawer since that time. Sunday she

wanted to wear some of them, and, unluckily, the drawer, she discovered that they had disappeared.

The detectives are puzzled as to how to find the time the jewels were taken. The following gems are missing: A two-stone diamond pin, present on

of thirteen pearls, ring set with six pearls, gold bracelet set with two diamonds and one ruby.

**Please Check in 4 to 10 Days.** Investigation, reward money, if found, or returning same. First application gives value.

**Something new—Simply delicious—Our new "Orange Label" Blend—30c. a half pound**

**Ridgways Tea**

**STYLES 24 HOURS FROM BROADWAY**

**A Word About**

**Hatters, Otters, March Hares, and L. C. ADLER'S Spring Haberdashery**

**THE English used to think Otters were crazy, because the Otters slashed around in the trout-streams, killing the fish at all seasons.**

When a Man had wild ways, they used to say he was "Mad as an Otter." But the English have a queer way of mixing their H's, and the phrase has gradually changed to "Mad as a Hatter," to the great scandal and amusement of all who deal in headgear.

In reality, however, Hatters and March Hares have little in common, and a good Hatter must invariably be a sensible man.

I am a Hatter and Haberdasher. I sell hats, shirts, ties, collars, cuff buttons or links, studs, pins, waistcoats, socks, underwear, garters, belts, and all the necessities of men's dress.

I handle the finest and most exclusive lines in Atlanta. It is money in your pocket to buy my haberdashery. It looks better—wears longer—it is economical—it is business efficiency.

One of my customers wears \$5 and \$10 shirts. They appeal to his taste. Some of his shirts are three years old and every time he puts one on it looks like a brand-new shirt. He has spent less money in shirts in one year than some men who buy only \$1.50 and \$2 shirts.

The lower priced shirts that I sell are the best made for the money. But my high priced shirts are also worth every cent I ask for them.

It's the same way with ties. A shrewd business man can often judge a man's line of thought and scope of activities by his neckwear. I have ties at fifty cents that are beauties, remarkable values for the money. I have others up to five dollars that will hold their form, color, style and character as long as a man stands up to do one, and then the fabric will still be a piece of rare beauty that one hates to discard. A well dressed man buys fifty cent ties from me. His neighbor buys \$5 ones. I sell them both. They are satisfied. They know they get full value here in any grade.

I can advise you as to style. My customers have learned that L. C. Adler's taste can be trusted. But you can decide for yourself and find here exactly what you want.

And remember this: You don't have to be a lavish spender to become a valued customer of L. C. Adler.

We take pride in the exclusiveness of the styles we show, but we take an equal pride in offering SUBSTANTIAL VALUES.

On this basis we invite your patronage. Come in and see our new stock.

**Our Spring Hats Arrived Yesterday**

They came direct from G. B. BORSALINO, Alessandria, Italy. They are masterpieces in new shapes and coloring. They have the individuality and elegance peculiar to foreign goods of the highest class.

**Our Grand Opera Goods Have Also Arrived**

Silk Hats, Vests, Shirts, Ties, all the elegant accessories of Evening Dress. We are offering the newest and richest line of these goods ever shown in Atlanta.

## THE POLITICAL HORIZON.

The address of Clifford Pinchot, delivered yesterday at Huron, S. D., and published elsewhere today, is thus far the most important political pronouncement of the year. Not to Roosevelt himself, now in the jungles of Brazil, Pinchot speaks with authority for the brass moose element.

The olive branch held out by the infelicitous stand element of the G. O. P. is surely brushed aside and war to the knife is declared. Such shining lights as Hadley, Rusk, Cummins and La Follette, Pinchot reads out of the progressive camp without benefit of clergy. There is a ring of contempt, a note of animosity in every sentence. The republican is dead. He knows it and believes everybody else knows it. You will not compromise with a corpse. And there you are.

Mr. Pinchot states the case with prophetic accuracy. The republican schism is irreconcilable. What bearing have these developments on the fortunes of the democratic party? This: That the party will go into the fall elections with a two-to-one advantage as it did in the latest presidential election, and that, in turn, means increased majorities in house and senate.

The fragment of the wreck of the once invincible republican party will disappear altogether with the next presidential election. If, indeed, it survives the congressional elections next year.

The bull moose contingent has the zeal of the crusader. It is destined to dominate the opposition to democracy.

So far the democracy, guided skillfully by the president and his advisers in house and senate, has fought a battle marvellously successful from points of view of national popularity and political advantage. It is only to pursue the lines thus far laid down to make irreparable before the country.

Then, when the break comes, it is soon scheduled in the ranks of the opposition, the democratic party will find on turning terms those who find the G. O. P. too old-fashioned and the bull moose too erratic. No party ever was confronted by greater opportunity than that which now confronts the democracy. With the opposition hopelessly divided, victory is in its hands. Every port in the political codpiece blows victory. If the party adopts extremeism and cleaves to non-partisan service, as it has done so signally with the tariff and the currency, it is assured of an indefinite tenure of power.

THE BORDER STATES.  
When the final history of the Mexican endless-chain revolution is written, an important, not to say lurid, chapter will be devoted to the American states that border on the frontier. The latest contrivance is reported from Toluca, Cal., where it is claimed that the postmaster has been murdered and the town "shot up" by three Mexicans.

All the border states have had their troubles. Texas, New Mexico, Arizona and California, has fought a battle marvellously successful from points of view of national popularity and political advantage. It is only to pursue the lines thus far laid down to make irreparable before the country.

no measure of doubt that if the people of any or all of these states had at any time been as excited as they have been represented to be, Washington either could not have resisted the demand for intervention or would have found itself in an exceedingly delicate position.

We have, then, the illuminating spectacle of a good deal of wisdom and better policy than their leaders. In this day, when the newspaper and the schoolhouse are wellnigh universal, this actual evidence of their ability to make people do their own thinking bears its own significance and gratification.

## WHO WAS THE BOSS?

Whether his divergence with the Wilson Mexican policy or John Bassett Moore's natural reluctance to continue diplomatic drudgery furnishes the real motive of his resignation as counselor of the state department may be a matter of metaphysical speculation, the question asked in the foregoing paragraph. Indeed, Mr. Bryan went into the state department confidently ignorant of matters diplomatic, save such knowledge as he might have picked up in his foreign travels, his campaigns and his congressional career.

But experience of this nature does not invariably qualify a man to hold the helm of a great nation on its problems of state. There are intricacies and special requirements needed which come only with advanced study and a naturally judicial and deliberative habit of mind. This equipment, Moore had. It is said that he is today the foremost authority on international law in America.

The story comes from Washington on creditable authority that no important crisis ever allowed to come to a point unless the advice of Moore had been prayerfully sought by Bryan. Bryan was a man of affairs. Moore has a knowledge of precedents that is bewildering and a memory of the strength and weakness of foreign diplomats not short of uncanny.

Moore's hand was seen in our encounter with Japan over California, and his cunning also has been visible in the delicate Panama situation. Whenever Bryan was absent from Washington, which was not infrequently, Moore was "on the lid," and there never was a complaint of one diplomatic wrinkle going unnoted.

Whether Mr. Bryan held the stronger hand in the state department furnishes interesting food for conjecture, but will never be definitely ascertained. In the last analysis, Wilson always decided. But preceding that decision was it Moore or Bryan?

## ONE HOSPITAL FOR BOTH.

Council has passed a resolution the effect of which is to invite Fulton county to co-operate with the city of Atlanta in the maintenance, enlargement and use of Grady hospital.

The plan is both practical and meritorious. Fulton county, almost synonymous with Atlanta, is the largest of the county facilities. The county needs them badly.

Grady is cramped that facilities offered Atlanta are and long have been inadequate.

Combining the city and county can maintain an institution equipped to care adequately for all their public hospital needs.

In the process Grady will be improved, modernized and enlarged, and it can be made the greatest and most up-to-date hospital in the south.

What this means to Atlanta in medical prestige, in hospital facilities and more substantial advantages need not be emphasized. It means let city and county get together.

The plan is constructive in its very aspect.

## A CIVIC DISGRACE.

Council has made provision for the cleaning up and refurbishing of city hall in advance of the coming of the Shriners.

That is well. But why wait for the spur of distinguished guests in order to clean up? Why wait to clean Atlanta's buildings or monuments until outsiders are likely to come with critical eyes?

Right across from the city hall is Grady monument, testimonial to an Atlanta who served the whole nation. Today, that statue is grimy with the accumulations of months, and a few hours' work would put it in good order. Who is responsible for the neglect?

What encouragement does this policy offer public-spirited citizens who give monuments or ornaments to beautify the city and crystallize historical events?

Atlanta's practice in this respect does not stop short of civic disgrace.

Those invading Texans are hearty in their charges. They are at Uncle Sam's border resort full fare.

## The Economic and Industrial Value of Boys' Corn Clubs

Editor Constitution: It is entirely too narrow a view of the boy's corn club to consider it as merely a plan for teaching of boys how to raise more corn. This of itself would, of course, be of sufficient value to more than justify all that is being done in this direction. But there are other useful and far-reaching lessons that go hand in hand with the increasing crop yield. The boy who is conducting one of these corn demonstrations is encouraged to be thorough, to be systematic, to be economical and to be happy. He is taught some of the elementary facts of agriculture, such as the value of a thoroughly and deeply plowed field, the importance of a good seed, the importance of shallow cultivation, of care in seed selection, of system and exactness in keeping an account of his operations and the cost thereof, of profit by the experience of others in the selection and application of fertilizers, and many other of the things which, in his future life, no matter what calling he may finally select, will be of great value to him.

That work of such useful educational value should be made a part of our primary educational system goes without saying. That it will be done as rapidly as the necessary preparation can be made is now assured.

Chancellor Barrow, of our state university, when there is no more sympathetic and earnest friend of rural education, commends this work most highly. Speaking of the increase of the Georgia corn crop from more than 20,000,000 bushels through this movement, he says: "The corn clubs and the canning clubs and the home economics clubs are the three great forces of the future. These three great forces—home, industry and school—will yield the fruit of a new era of civilization."

The corn clubs give opportunity at home for applying work. The boy finds that there is for him opportunity for advancement and that the school is no longer so potent. There are other avenues through which he can acquire knowledge. There is room for growth at home.

A. M. Squire, president of our State College of Agriculture, is giving unstinted support and practical method of teaching agriculture and other industries to the boys. He is determined to bring to the boy the opportunity to speak in his favor and encourage its extension.

Food and clothing are essential to all human beings. How to provide themselves with food and clothing, in the least expensive manner, should certainly be made a part of the boy's education. This is what our school extension means. This is what our corn clubs mean. This is what our home economics clubs mean. This is what our primary schools to the needs of the people that it will very soon compel the attention of the government. Corn Club Agents.

## THE CATERPILLAR.

Editor Constitution: I am a caterpillar. I am a small, fuzzy object, which looks something like a young man's head.

The caterpillar is, in fact, the sphomorph of the insect family. He is voracious and untractable, but later he will emerge as a butterfly and become something entirely different. The caterpillar, from which it comes, as the husband and father is from the bounciness of the caterpillar of the open-face, ribbon-hatted type.

The caterpillar usually emerges from obscurity in the spring and enters himself into the life of the world.

The caterpillar is a small, fuzzy object, which looks something like a young man's head. He is voracious and untractable, but later he will emerge as a butterfly and become something entirely different.

## Davison-Paxon-Stokes Co.

## Devices That Will Make Spring House Cleaning Easy

House cleaning would never be such a burden if the right preparations were made beforehand.

We want to show you how easily and satisfactorily floors can be cleaned and polished and how rugs and carpets may be cleaned with very little labor.

For instance:

## The Domestic Vacuum Cleaner

The Domestic Vacuum Cleaner is the greatest cleaning device ever perfected. It requires no electricity, no hand-pumping; you simply run it over the floor like a carpet sweeper. Turning the wheels creates a vacuum which draws air through the nozzle at the rate of more than 25,000 cubic inches per minute. With this air comes all the dust, dirt, germs, moths, etc., from carpets and rugs and even the dust from the floor beneath the rugs or carpets.

All dust or dirt is deposited in a cloth bag inside the sweeper, which may be turned out and emptied in the fire or otherwise destroyed.

Thus you actually get rid of the dust in your home, instead of stirring it up to breathe, and to settle again.

There are several different models, at different prices.

Many of them in use now at the Hotel Ansley and other hotels, besides private homes in Atlanta.

Let us show them to you any day this week.

Domestic de Luxe (Special)

**A Perfect Combination Cleaning On f f**  
**T HE** finest all-round cleaning device on the market. Has the largest vacuum pint mode. Ball-bearing throughout; patented roller adjustment in front; carver-leveller adjustment to throw in or out, which works perfectly on any carpet or rug; complete hose attachments for cleaning everything in the house; sprayer wash brush for linoleum and hardwood floors. The ideal solution for cleaning efficiently, saving every bit of dust on every article from cellar to roof. Packed away in strong wooden case.

**Price, Outfit Complete, \$18.00**

Regular price of BB Model ..... \$12.50  
 Regular price of hose with Nozzle Attach. .... 4.00

**The L-V Floor Polisher and a QUART BOTTLE of Liquid Veneer**

**\$1.50**

This is a temporary introductory offer—the quart

Regular price of Hardwood Floor Cleaner . . . 1.50  
Regular price of Wall Brush . . . . . . . . . . . . . . 40

Total . . . . . \$2.00

When you purchase the de Luxe outfit, you get all the above for our special combination price of . . . . . **\$18.00**

The L-V Floor Polisher serves a two-fold purpose. It not only cleans the floor thoroughly, removing the dust, dirt, stains and blemishes, but at the same time imparts a beautiful, lasting lustre. It makes your floors just as bright and clean as when they were newly finished, and mark you, it leaves them perfectly dry.

Once you've tried these wonderful L-V Floor Polishers you will feel a little

**Domestic Model "F. B."**  
**Smaller Size, at \$10**

Has the "Domestic" quality finish throughout. This is a smaller and lighter machine than the "B" Model. Sweeper attachment underneath same as in Model "B," only smaller; gets all dirt and litter, whether on the carpet or in it; packed in fiber cases. Price, each, \$10.00.  
(Rug and Drapery Section—Fifth Floor.)

Indeed, it is far better to get your order in early. Then, when

These, for the bathroom, are white enamel—size 10x13.2 inches; with 9x12-inch beveled French plate mirror and one glass shelf.

We have only a limited number to sell at this price—98¢ each.

Order right away by telephone, if you can't come down.

## GEORGIA TO GET CREDIT FOR LABOR OF CONVICTS

**ized to Draw Amendment  
to Good Roads Measure.**

**By John Corrigan, Jr.**  
Washington, March 17.—(Special).—  
Senator Hoke Smith, of Georgia, was

agriculture today to draft such an amendment to the Stockholders National 666 good roads bill as will authorize the federal government to contribute as part of the state's contribution to enable it to participate in the federal highway program. The bill requires each state receiving aid from the federal government to contribute an amount not less than the amount to be received the following year to highway construction.

Under an old executive order issued by President Roosevelt convict labor was barred from government work. While this policy was in effect, the federal government, through the stroke of the pen, it was thought best to exempt the convict from the law against himself. Senator Smith will frame an amendment to the bill to allow the state of Georgia to credit such county with the work performed by its convicts in the construction of highways.

As now framed the bill provides for the construction of 100 miles of road each year for each mile of road already in existence. The bill also provides for the division into A, B and C roads. The A roads are to be constructed first, followed by the B roads, and the C roads are to be constructed last. The number of miles to be constructed in each class is to be determined upon the willingness of the state to contribute. The bill also provides further, upon its willingness to contribute, upon its willingness to contribute, upon its willingness to contribute that it receives from the federal government.

### CHAIRMEN ARE NAMED BY MELL R. WILKINSON

Mell R. Wilkinson, president of the Georgia National Association of Manufacturers, has named the following chairmanship of the various committees of the association:

NEWELL, chairman of the vital statistics committee; J. H. HARRIS, chairman of the military committee; and J. H. HARRIS, chairman of the military committee.

The association's work will be of considerable importance in the activities of the state government in the next few months, there being now pending in the Georgia legislature a number of bills of importance.

## FREE TOLLS FIGHT BEGINS IN HOUSE

Kahn and Moore Attack Proposition to Repeal Exemption Clause—Discussion to Open in Senate.

Washington, March 17.—Two republicans, Representative Kahn of California and Senator Moore of Missouri, today began a fight in the house to oppose the repeal of the Panama canal exemption clause. The exemption clause is a provision in the Panama canal treaty which exempts the canal from the payment of tolls on goods and passengers.

Discussion of the toll controversy will be the first of the Panama canal treaty which was passed by the house in 1912. The exemption clause is a provision in the Panama canal treaty which exempts the canal from the payment of tolls on goods and passengers. The exemption clause is a provision in the Panama canal treaty which exempts the canal from the payment of tolls on goods and passengers.

Some senators oppose the resolution on grounds that the situation with relation to the canal is not yet settled. The exemption clause is a provision in the Panama canal treaty which exempts the canal from the payment of tolls on goods and passengers. The exemption clause is a provision in the Panama canal treaty which exempts the canal from the payment of tolls on goods and passengers.

Attacking the administration's foreign policy, the free trade advocates, Kahn and Moore, today began a fight in the house to oppose the repeal of the Panama canal exemption clause. The exemption clause is a provision in the Panama canal treaty which exempts the canal from the payment of tolls on goods and passengers.

## WOMAN'S REPEAL FIGHT BEGINS IN HOUSE

French Cabinet Won't Re-sign Because of the Killing of Editor Calmette—Madame Caillaux in Prison.

Paris, March 17.—Not since the Dreyfus affair has any incident in French history so stirred the French people as the killing of the editor of the *Journal*, Georges Calmette, by the wife of the prime minister, Marie Caillaux.

Madame Caillaux, who was arrested and is now in prison, is the wife of the prime minister, Raymond Caillaux. The killing of Calmette was a result of a long-standing feud between the two families.

The French cabinet, led by Raymond Caillaux, has refused to resign because of the killing of Calmette. The cabinet is now in a state of crisis, and the French people are demanding a change of government.

## Gifford Pinchot Sounds Knell for G. O. P. and Tocsin for "Progressives"

Huron, S. D., March 17.—(Special.)—In a remarkable speech, delivered at a progressive rally here today, Gifford Pinchot, personal representative and friend of Theodore Roosevelt and candidate for the United States senate against Boies Penrose, of Pennsylvania, declared that the republican party was morally bankrupt.

Pinchot, who is a member of the progressive party, declared that the republican party was morally bankrupt. He said that the republican party was the party of the past, and that the progressive party was the party of the future.
